Re: Crescent Midstream, LLC – Corrected FERC Indexing, LPSC Tariff Revisions

Dear Customer,

Effective November 1, 2024, Crescent Midstream, LLC (“Crescent”) implemented adjusted rates on its Louisiana Public Service Commission (“LPSC”) Tariffs listed below. The adjusted rates are being increased due to the FERC issuing an Order Reinstating Index Level<sup>1</sup>, which corrects and reinstates the annual FERC Index multipliers for the periods July 1, 2021 through June 30, 2025.<sup>2</sup>

LPSC Tariff No. 10.10  
LPSC Tariff No. 15.6  
LPSC Tariff No. 45.9  
LPSC Tariff No. 55.2  
LPSC Tariff No. 65.10  
LPSC Tariff No. 75.11

The above-referenced Tariffs applying the applicable revised index multipliers of the FERC Order cancel and replace the prior iterations of same, effective as of November 1, 2024.

In addition, Crescent LPSC Tariff No. 60.11 applying the applicable revised index multipliers of the FERC Order will become effective December 1, 2024, and cancels and replaces Tariff No. 60.10, effective December 1, 2024.

All LPSC Tariffs published by Crescent may be viewed and printed from our website at <https://www.crescentmidstream.com/customers>.

If you need additional information regarding these Tariffs, please contact me at [ckral@crescentmid.com](mailto:ckral@crescentmid.com).

Sincerely,

Chris Kral
